PROFESSIONAL SUMMARY

Computer Science (Multimedia Computing) graduate (UNIMAS) with hands-on helpdesk experience through an osTicket home lab and a 6-month IT internship. Skilled in troubleshooting Windows and Linux, ticket management, hardware diagnostics, and desktop support. Fluent in English and Bahasa Malaysia. Seeking to contribute strong technical troubleshooting and customer support skills as IT support or Helpdesk supoort.

TECHNICAL SKILLS

- Operating Systems & IT Support: Windows 10/11, Linux, Hardware Diagnostics & Upgrades, Desktop Support, Ticket Management & Documentation.
- Networking & Security: TCP/IP, Wi-Fi & LAN Troubleshooting, Phishing and Data Privacy Awareness.
- Helpdesk & Systems: osTicket, Ubuntu Server, VirtualBox.
- Software & Tools: Microsoft 365 (Excel, Word, Teams, OneDrive), Canva, Trello.
- Databases & Programming: Python, SQL, Git/GitHub.

LANGUAGES

- Bahasa Malaysia (Fluent), English (Fluent), Kayan (Native), Iban (Conversational).

EDUCATION

- Bachelor of Computer Science (Multimedia Computing) | Universiti Malaysia Sarawak (UNIMAS) (CGPA 3.19) Completed all degree requirements; convocation November 2026.
- Matriculation (Physical Sciences) - Malacca Matriculation College (CGPA: 3.54).

PROFESSIONAL DEVELOPMENT

- Data Analytics Essentials | Cisco Networking Academy (2026).
- IT Support Specialist Career Path | Cisco Networking Academy (2026) - In progress. Expected completion: November 2026.

PROJECTS

Help Desk Ticketing System (Home Lab) | Ubuntu Server, osTicket, VirtualBox, Apache, MySQL
GitHub: https://github.com/michaellian50/osticket-helpdesk-home-lab

- Deployed osTicket on an Ubuntu Server virtual machine using Apache, PHP, and MySQL.
- Configured help topics, support departments, and SLA plans to organise and prioritise support requests.
- Practised ticket management, including assignment, prioritisation, internal documentation, customer-facing responses, and resolution.
- Simulated troubleshooting scenarios involving Wi-Fi connectivity, software installation, and printer issues.

Recobook - Web Based Book Recommendation Platform (Final Year Project) | Flask, Python, NLP, HTML, CSS, JS
Github: https://github.com/michaellian50/Recobook-Book-Recommendation-system-with-AI

- Built a Flask web app using the pre-trained all-MiniLM-L6-v2 NLP model and Cosine Similarity to map user profile vectors to a dataset of 6,500+ books, with semantic search achieving a good success rate in functional and deployment testing.

WORK EXPERIENCE

GIS Analyst Assistant | Woodman Group of Companies - (August 2026 - Present)

- Plan and execute drone flights for aerial mapping and field data collection. Process raw imagery in DJI Terra to produce orthomosaics and spatial datasets. Continunously learn new software (DJI Terra, QGIS) independently on the job.
- Conduct palm tree census counts and verify attribute tables for reporting. Generate final map layouts and spatial data exports using QGIS.

IT Intern | Data Solutions Sdn Bhd (Kuching Branch) - (March 2025 - August 2025)

- Collaborated on building, testing, and optimizing an internal Intern Attendance System, identifying and resolving performance bottlenecks prior to production deployment. Supported testing and troubleshooting of internal web applications.
- Processed, cleaned, and formatted hundreds of legal court documents, ensuring data integrity prior to publication on the eLaw.my database platform.

COMMUNITY INVOLVEMENT

Project Presenter & Volunteer | SULAM Project (Service-Learning Malaysia – University for Society)

- Delivered a community talk on Cybersecurity Awareness, educating audiences on phishing and data privacy at Kampung Tanjung Tuang, Samarahan.
- Collaborated with a student team to plan, organize, and execute an educational community outreach program focused on digital literacy.

REFEREES
